

FROM COW TO CUP, ONE CLICK AWAY

A friendly website that teaches milk and sells the farm

Group Name: **Six Seven**

Group Members: **Badr, Mel, Ayman, Guli**

Study Case 2

ABOUT OUR VISIT

INTRODUCTION / EXISTING CONDITIONS

At **Mini Ranch Baturraden** we followed milk from the cow to the cup. It is a big, busy dairy business, but it has **no website**: no profile, product prices, or visitor info online.

OUR CHALLENGE

PROBLEM STATEMENT

“How can a first-time visitor understand and *remember* one lesson about milk?”

OUR GOAL

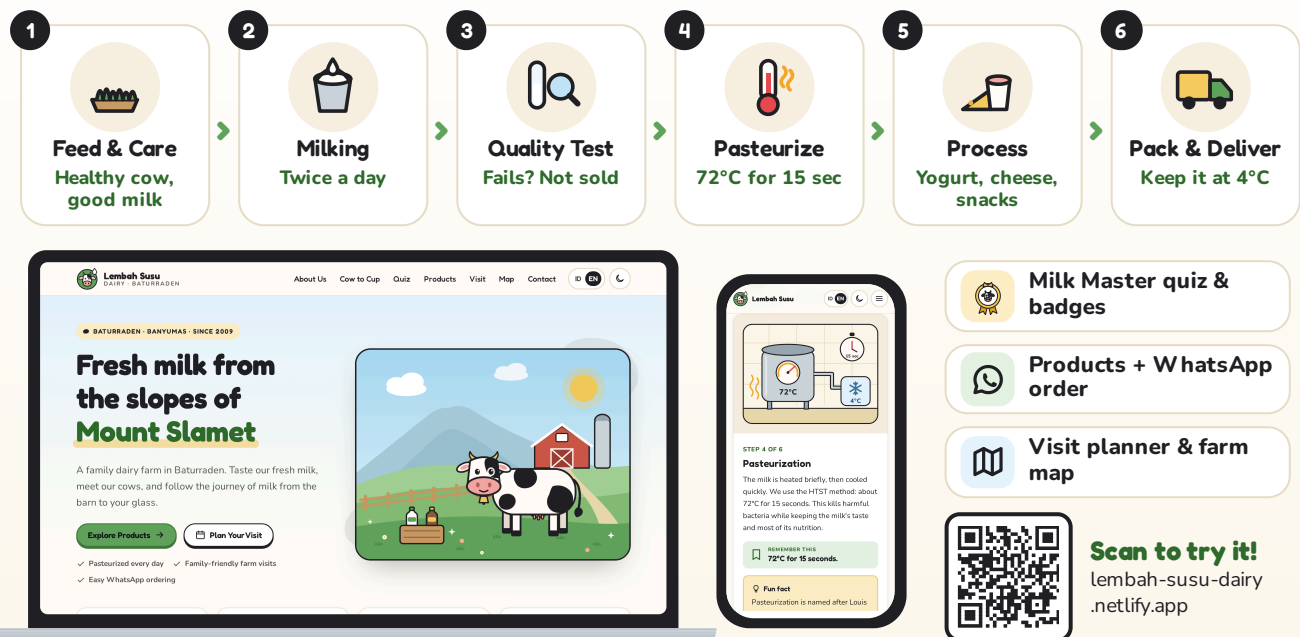

OBJECTIVE

- ✓ Make the milk journey easy to learn
- ✓ Show products, prices and visit info in one place
- ✓ Make ordering and booking easy

OUR IDEA

IDEAS / RECOMMENDATIONS

A demo dairy website. Its heart: **“From Cow to Cup” in 6 picture steps**, each with one line to remember.

Demo brand "Lembah Susu Dairy" is fictional. Prices and data are samples.

WHAT WE LEARNED

CONCLUSION / REFLECTION

A picture plus one short sentence makes a lesson stick. And a simple website can help a local farm be **found, trusted and visited**.
